

AQUA CENTER PROPOSAL

WHO WE ARE

Chance Boat is operated by a native Egyptian and a crew of hard working locals.

Whether it be a snorkeling tour or the odd diver adventure, we offer the best of the sea.

We offer unique adventures for our tourists and locals alike. Our food is the highest quality and we have been rated #1 on TripAdvisor by our guests!

Our focus is to bring our guests close to their wildest imaginations of the underwater environment within the Red Sea.

AQUA CENTER

Our desire is to open an aqua center for the dual purpose of visiting the Red Sea and the marine life we have to offer.

We intend to include a live aquarium with an educational focus for adults and children alike.

- * Live Aquarium
- * Educational material
- * Local fish from the Red Sea
- * Rental snorkel equipment
- * Tours with Chance Boat

NON-PROFIT

As we are a local family to the Red Sea, we realize that nearly all species of sea turtles and dugong are classified as endangered.

Slaughtered for their eggs, meat, skin, and shells, sea turtles suffer from poaching and excessive exploitation.

While the dugong (sea cow) does not have any natural predators, they have still become endangered. Algae has become toxic with our changing world and can kill these sweet creatures.

We intend on offering an educational experience with a donation only ask to be provided to the World Wildlife Federation.
